V. The bid must contain:

- The offered price in EUR (excluding VAT), which must not be lower than the listed minimum sale price (Bids submitted in another currency will not be considered)

VI. In case of receiving multiple valid bids from the same bidder, the accepted bid shall be the one with the highest bid amount.

In the case of the withdrawal of the most favorable bidder, the next bidder that offered the highest price is considered the most favorable bidder, provided that it is higher than the initial price.

If there is a bid for several items the offer should be expressed in such a way that for each item, the offered unit price, and the offered price in total, is stated.

The offer can be given for only one material asset.

The offer should be higher than the initial purchase price.

VAT is calculated on the final offered price.

The Company reserves the right to cancel the sale of any main reductor or the sale as a whole at any time.

A sales contract is concluded with the selected bidder in which the delivery and the payment of the item will be defined.

Transportation of the purchased item(s) is at the bidder's expense.

VII Bidders may inspect the material assets, during the hours of 9:00 a.m. to 15:00 p.m., upon prior announcement via email to: [zeljka.markov@ztc-atc.hr](mailto:zeljka.markov@ztc-atc.hr), and agree on the inspection date.

VIII The opening of bids will not be public, and bidders will be notified of the results within 30 days.

IX The sale will be made according to "seen-bought" principle and excludes the possibility of complaints.

X Bids received after the deadline for bid submission will not be considered.

XI This Decision enters into force on the day of its adoption and will be published on the Company's website.
